**This exclusive Katun Performance OPC drum kit provides convenience and great value in one simple package!**

Katun is pleased to introduce a high-quality drum kit for Canon iR 1018/1023 applications. This drum kit provides OEM-equivalent performance at a significantly lower cost than a new OEM drum unit – providing Canon dealers with an outstanding long-term profit opportunity for these machines.

## Benefits

### ◆ Improves Cost-Per-Copy

This Katun Performance drum kit – *the only alternative to the OEM drum unit currently available* – will enable you to significantly reduce your cost-per-copy and help improve overall profitability, without compromising copy quality, yield or customer satisfaction. There is no need to replace a costly drum unit when a new drum and cleaning blade are all that are needed.

### ◆ Compatible with OEM Toner

This Katun drum rebuild kit has been extensively tested to ensure compatibility with OEM toner. You can be confident that these kit contents provide OEM-equivalent performance, image density, background and yield.

### ◆ Convenient Refurbishing Kit & Easy-to-Follow Instructions

Technicians will appreciate the convenience of having all the necessary components in a single kit, ready for their next service call. On average, a technician following the included refurbishing instructions will be able to remove and replace the new Katun OPC drum and cleaning blade within 15 to 20 minutes.

### ◆ Enhanced Long-Term Competitiveness and Profit Opportunities

This machine series is still being placed by Canon dealers/distributors and has proven to be extremely successful, with worldwide placements of over 125,000 units since late 2006. This Katun drum kit offers significant cost saving opportunities and enhanced profitability on a large and still-growing machine base.

## Machine Overview

Model	Speed (ppm)	Intro Date	Mfg Status	Markets
iR/imageRUNNER 1018	18	Q4 2006	Current	Europe/Asia
iR/imageRUNNER 1022	23	Q4 2006	Current	Europe/Asia
iR/imageRUNNER 1023	23	Q4 2006	Current	North/Latin America
